This booklet contains important information regarding your employee benefits program.

Table of Contents

Employnet Workforce Management

strives to provide you and your family with a comprehensive and valuable benefits package. We want to make sure you're getting the most out of our benefits—that's why we've put together this Benefits Guide.

Open enrollment is a short period each year when you can make changes to your benefits. This guide will outline all of the different benefits so you can identify which offerings are best for you and your family.

Elections you make during open enrollment will become effective on **August 1, 2022 - July 31, 2023**

This booklet is a summary description of your benefit plans. If there is a discrepancy between these summaries and the written legal plan documents, the legal plan documents shall prevail.

Benefit Eligibility

Who is Eligible?

Employees working **30 hours** or more weekly are eligible for benefits on the first of the month **following 30 days after date of employment**. You have the opportunity to add your eligible dependents including your spouse, domestic partner, and dependent child (ren) up to age 26 for certain coverage.

How to Enroll?

During your open enrollment period you will have the option to change your benefit elections, add/remove dependents or change your plan. Our 2022 Annual Open Enrollment dates are:

June 29th - July 8th, 2022

Termination of Coverage:

If your coverage ends, you may have the right to continue coverage for a limited period of time under your COBRA rights. See your employer for details.

How to Make Changes Mid-Plan Year?

All plan elections will be effective for the entire plan year, unless you have a change in family status, also called a Qualifying Event. *You must request the change within 30 days of the Qualifying Event.*

Examples of a Qualifying Event include:

- Marriage/Divorce/Legal Separation
- Birth or Adoption of Child
- Change in your Employment Status
- Change in Spouse's Benefits
- Change in Child's Dependent Status
- Death

Payroll Deduction:

Some contributions will be pre-taxed. IRS regulations prevent changes without a qualifying event to payroll deductions.

California Individual Mandate:

Effective January 1, 2020, see legal notices.

HMO vs. PPO

HMO:

Covers services performed solely by in-network providers. You must elect a primary care doctor (gatekeeper).

PPO:

Has a network of providers, but also allows for the use of providers outside the plan's network.

Your Premium Share

The amount you pay for your health insurance every paycheck (after your employer contribution). This comes out of your pay as an automatic deduction and may be pre-taxed.

Deductible

A specific dollar amount you pay out of pocket before benefits are available through a health plan. Under some plans, the deductible is waived for certain services. Higher deductibles lead to lower premium but increase cost at time of care.

Copayment

A flat fee that you pay toward the cost of covered medical services that is paid at the times of services.

Coinsurance

Your share of the costs of a covered health care service, calculated as a percentage of the allowed amount for the service.

Out of Pocket Maximum

A cap on your costs for the calendar year. Once you reach this maximum, your health plan will pay 100% of your covered expenses for the rest of the plan year. Excess fees are your responsibility.

In-Network vs Out-of-Network

In Network: In-network means that your provider has negotiated a contracted rate with your health insurance company. Health insurance companies would prefer you to seek care from their in-network providers because it costs them and you less. Narrow networks can reduce costs but limit the number of providers. Out of Network: Out-of-network health care and plan payments are subject to higher deductible and copays. Out-of-network providers charge more and you may have to pay more. Excess fees are your responsibility.

Telemedicine

Telemedicine and telehealth services are emerging as viable solutions to help lessen the burden on health care facilities and staff, while still providing individuals with the care they need.

What is telemedicine?

Telemedicine is a form of technology-based communication that allows you to connect and communicate with a doctor without being in the same physical space.

Remote Access

Through telemedicine, patients can access doctors for routine visits, emergency care or diagnostics from a specialist.

Convenient Care

For some patients, the comfort and convenience of consulting with a doctor from the safety of their own homes is a tremendous advantage.

Cost Savings

Patients don't have to pay travel expenses for distant doctors and don't have to take excessive time off work to travel and then sit in a waiting room.

Anthem

Speak to an advice nurse or make an appointment for a video visit.

How can telemedicine be beneficial in responding to the COVID-19 pandemic?

Guidance from the Centers for Disease Control and Prevention recommends calling your doctor or local care facility before you go for a visit, unless it's a medical emergency. As demand for these health services increases, these facilities are being overwhelmed by phone calls and requests for tests.

In some cases, telemedicine can put you in contact with a doctor more quickly than calling your health care provider or local hospital could. The doctor can virtually assess your symptoms and ask screening questions to see if they would recommend a COVID-19 test for you. The doctor may also be able to recommend treatment options.

Where to Access Care

Save Time & Money

Choosing the appropriate place of care will not only ensure prompt and adequate medical attention but it will also help reduce any unnecessary expenses.

If you wish to decline coverage for yourself and/or your dependent(s) who are eligible to enroll under our group medical and dental plans, you must complete this form. Before declining coverage, please read the Late Enrollment Warning on the bottom of this form.

If you are declining coverage under this plan because you and/or your eligible dependent(s) have coverage under another employer's benefit plan, please indicate that below. If you are declining enrollment for yourself or your dependents (including your spouse) because of other insurance coverage, you may in the future be able to enroll yourself or your dependents in this plan, provided that you request enrollment within 30 days after your other coverage ends. In addition, if you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents, provided that you request enrollment within 30 days after the marriage, birth, adoption, or placement for adoption. Note the exceptions in the Late Enrollment Warning so you know the circumstances in which you may enroll later in our plan without being considered a late enrollee.
